# Presentation

Established in 1993, MT Displays is the world's leading display units manufacturing company, committed to setting unrivaled standards in the Point of Sale and Display industry. With a total of 43.300 square meters of closed area, we present 27 different product groups and over 20.000 unique SKUs, all designed, molded, and manufactured in-house. From design to manufacturing, we continuously invest in new technologies and upgrade our capabilities.

## Our Headquarters and Geographical Presence in the World

Headquarters and Factories Türkiye

 **Çayırova Kocaeli, Türkiye:** Headquarters, production facilities and warehouses with 16.000 square meters closed area, largest stock of raw materials, and 3.500 pallet capacity of finished products.

Headquarters and Warehouses in US

 **Wilkes-Barre, PA:** MT Displays LLC was founded in 2013 for serving North American market with a large distribution office, showroom, and printing facilities. Established in 2013, the facilities of MT Displays LLC covers 11.700 square meters closed area and maintains a stock of 7.000 pallet capacity, 1.800 different SKUs and 424.500 pieces of stock units for short lead times and prompt responses to customer needs.

DisplaysMarket, our e-commerce website launched in 2013, serves online customers all over the USA, offering a wide range of unique products with a same day shipping system for orders placed until 2 pm.

## Our Branches and Geographical Presence in the World

Our global headquarters with 3 production facilities is based in Türkiye. Additionally, we serve the market with large international product distribution branches and warehouses in the EU and the US. With the assistance of our thirty-year-experienced export team, MT Displays serves distributors and business partners in more than 84 countries on six continents.

### Branches and Warehouses Hungary

**Budapest, Hungary:** MT Displays KFT in Budapest was founded in 2014 for serving Eastern Europe and Baltic countries with a comprehensive distribution branch, showroom, and a warehouse with 2.800 square meters closed area, maintaining a stock of 3.500 pallet capacity of finished products

### Branches and Warehouses Türkiye

**Istanbul, Türkiye:** MT Displays in Tuzla, includes our Printing Facilities, Tusador with 650 square meters closed area, offices of our Local Distribution Partner, SDS in Türkiye, Manufacturing Facilities of its subsidiary, Zenith LED products and a Warehouse with 9.000 square meters closed area, keeping a very large stock of finished products.

**Tavşanlı, Kocaeli, Türkiye:** Modern facilities with automated production lines and warehouses with 3.800 square meters closed area, holding many pallet capacity of finished products.

# ISO 9001:2015 / ISO 27001:2013 Certification

We gained the quality certificate, ISO 9001:2015, which is the best guarantee that our services meet the highest requirements.

Being first in our business does not come easily. It is earned by understanding our customers and by consistently providing the products and services that meet or exceed the expectations. As our business continues to evolve, we recognize that our customers' expectations of quality will only become higher.

At M&T, we are committed to meeting our customers expectations for the quality of the products and services that we provide. We personally affirm this commitment. However, this quality objective can be achieved only if everyone in our organization is involved. Therefore, a quality system has been established at M&T, which involves every employee.

In autumn 2008 TÜV Turkey certified M&T with ISO 9001:2008, which confirms that M&T's quality management system responsible for controlling the planning, implementation and maintenance of contact centers and software developments meets international requirements. The certificate will be supervised every year.

## What the certificate means:

The process of gaining the ISO certificate involves satisfaction of very strict criteria and passing of complex exams. Certification focuses especially on the standards of provided services, internal processes, approach to customers, manipulation with goods and others.

This quality system gives our employees a systematic method for continuous improvement by establishing a reliable way to take actions toward improving products and services.

## Certificate

Standard ISO 9001:2015

Certificate Registr. No. 01 100 901863

Certificate Holder:

MT REKLAM ANONİM ŞİRKETİ  
CUMHURİYET MAH. SELİN SK. NO:1  
ÇAYIROVA / KOCAELİ  
TÜRKİYE

Scope:

Design, Production and Sales of Aluminum Frame, Acrylic Brochure Sets, Boards, Illuminated Boards, Door Signs, Exhibition Systems, Menubards and Personal Protection and Hygiene Equipment; Production and Sales of PET, Polystrene, ABS Sheets.

Proof has been furnished by means of an audit that the requirements of ISO 9001:2015 are met.

Validity:

The certificate is valid from 2023-10-30 until 2026-10-22.

## WOOD QUALITY MANUAL

M&T Displays uses beech wood from the Europe's largest hardwood producer and world market leader for beech timber. Highly automated, efficient industry production designed to meet the most stringent quality requirements of the display industry indoor and outdoor. Optimised drying process guarantees low-stress wood and uniform colouring. Beech wood is a hard, strong and heavy wood. It has a fine, tight grain and even texture. It is very light in colour and has a high shock resistance. It is a popular wood for furniture due to high shock resistance. With its smooth finish it is a great wood to polish. Beech wood has good processing properties. See physical and mechanical properties of European Beech wood.

Property	Min	Avg	Max	Unit
Oven-dry density (%)	490	680	880	kg/m <sup>3</sup>
Gross density	540	720	910	kg/m <sup>3</sup>
Gross density (wet)	620	750	900	kg/m <sup>3</sup>
Proportion of pores (c)	about 55 %			
Shrinkage				
Longitudinally	about 0.3 %			
Radially about	about 5.6 %			
Tangentially	about 11.6 %			
Per cent increase of moisture content				
Longitudinally	0.46	0.60	0.74	volume
Radially	0.20 % radially			
Tangentially	0.40 % tangentially			
Other	Coefficient of thermal conductivity, 0.16 W/(m <sup>2</sup> K)			

Property	Min	Avg	Max	Unit
Compressive strength	41	63	90	N/mm <sup>2</sup>
Bending strength	24	43	65	N/mm <sup>2</sup>
Tensile strength (parallel)	57	135	180	N/mm <sup>2</sup>

Impact strength	3	10	15	J/cm <sup>2</sup>
Hardness (Brinell parallel)	about 72 N/mm <sup>2</sup>			
Hardness (Brinell perpendicular)	about 34 N/mm <sup>2</sup>			
Modulus of elasticity	100000	160000	200000	N/mm <sup>2</sup>
Torsional strength	15	19	25	N/mm <sup>2</sup>
Classibility	0.4	0.5	0.6	N/mm <sup>2</sup>

M&T Displays' beech wood is treated only with heat, water and water vapour during the entire production process. So it is free of any chemical additions.

M&T Displays uses natural wood. Each type of wood has its own unique characteristics and aesthetics. The colour of wood is still natural wood effect after laquered or dyed. Where wane is in the wood, the appearance is darker. This is not a defect, but nature of the wood. M&T Displays uses even colour it the products as possible. When it is not a defect, it is not considered as defect or second grade, but natural wood.

The grade of wood can be specified using a number of parameters such as knots, pitch pockets, wane, shake, split and check. The parameters are assessed in visual sorting, known as appearance grading by M&T Displays quality control team. Dead knots, decayed knots, horn knots, splits or pitch pockets are strictly avoided by M&T Displays wood quality standards.

It is phytosanitary certified to avoid any fungal attack, harmful pests and plant diseases. Insect damage is not possible in beech wood due its treatment.

The beech wood M&T Displays uses fulfills strict European environmental regulations. It is PEFC certified from sustainable managed forests. It is based on standard PEFC ST 2002-2013.

### Acceptance and Rejection Criteria

As M&T Displays, we have standardized what we accept and what we do not accept from the differences that occur due to the nature of the wood. We have stated our rejection and acceptance criteria on the images below.

### Storage Conditions

Wood-made products should be stored in below conditions:

- Stack of the ground
- Away from rain
- Out of direct sun light
- Cool and dry climate conditions

# MT Displays' Sustainability Commitment

We have already announced our latest Sustainability Commitment Report. In this report, we highlight our roadmap toward a greener future, focusing on the reduction of CO<sub>2</sub> emissions, renewable energy, environmental initiatives, and community engagement, in line with the United Nations Sustainable Development Goals.

MT Displays holds certifications that reflect our adherence to international environmental standards and regulations, including **REACH, RoHS, FCC, Prop 65, CE, UKCA, UL, ISO 9001, and ISO 27001**. These certifications demonstrate our commitment to adhering to stringent environmental regulations and ensuring our products meet the highest standards for safety and sustainability.

We are committed to reporting our corporate carbon footprint to authorized institutions by implementing standards by the end of 2024. In 2024, we have received **ISO 14001, 45001, and 50001** certifications. This proactive approach aligns with preparations to comply with the Carbon Border Adjustment Regulation, preventing additional costs for business partners and promoting environmentally responsible.

From achieving **I-REC** International Renewable Energy Certification, saving on water usage, eliminating energy consumption, sustainable wood sourcing, waste management, spare part program for self-repairing to implementing eco-friendly packaging solutions, our commitment to sustainability shines through in every aspect of our operations. We're proud to share our progress and invite you to join us in our mission to create a better world for generations to come.

## Access Our Full Sustainability Commitment Report

Interested in learning more about our sustainability efforts? Explore our initiatives in detail, from renewable energy projects to social responsibility initiatives, and discover how we're making a positive impact on the environment and our communities. Thank you for your continued support as we work towards a more sustainable future together. Access the full report from this link:
