IN REFERENCE TO RELEASE DATE: 01/08/2011 - Document #65457RO

This announcement contains revision information on one (1) index of Waterproof Frames produced under patent of PCT/TR 2006/00064.

Dear M&T Displays Partners, Distributors and Other Interested Parties:

Effective since 01/08, M&T Displays is launched the revision of the Version 1.1 Waterproof Frames specification existing in Waterproof Frame Index. Through this specification development process, M&T both assessed new opportunities for increased product efficiency and the potential to address expanded product categories in the residential and commercial marketplace. M&T invites your participation in following the below information over the changing dimensional size of waterproof frames.

BOM view changes and final step of revision – Have been changes in displays components and there have been no added or subtracted, phases, part names and part numbers which have been modified. It is only the application of the rubber process in production station that requires to be noted. That is a result increased the external dimensions +4 mm on all sides.

Kindly find below the table of new external sizes for 25mm waterproof frame.
