

PRODUCT REVISION ANNOUNCEMENT

RELEASE DATE: 19/12/2011 - Document #68575MF

This announcement contains revised information about profile and corner connectors of Queen Profile for index of Ocean Maxi Frames.

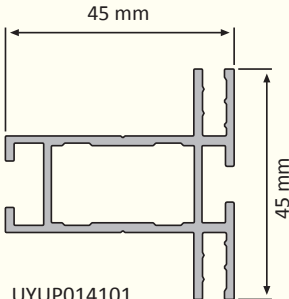

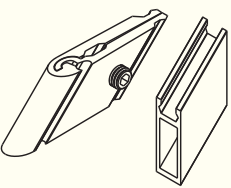

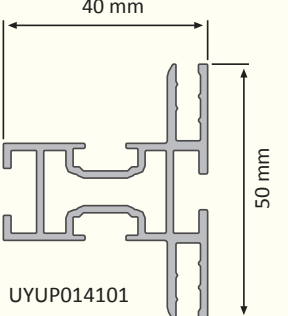

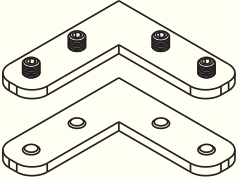

Dear M&T Displays Partners, Distributors and Other Interested Parties:

M&T Displays conducted a study of improvement over assembly process of Maxi Frames including profiles and connector cleats involved. Through this profile revision and new connector design, M&T targets to prevent unpredicted production and assembly failures during production and mounting phase of the customer.

Profiles and cleat connection phase is eased and efficiency in time and mounting phase is improved. For all pending orders at our factory, the improved design will be used continuously. Please communicate with your purchasing and sales team for introducing this new articles and efficiency provided.

BOM view changes and final step of revision - Both the profile and the connecting cleats are totally revised and parts are completely modified. New articles requires to be noted on all relevant documentations

Kindly find below the comparison of the old and new look of Queen Profile.
