

PRODUCT REVISION ANNOUNCEMENT

RELEASE DATE: 03/06/2016 - Document #...

This announcement contains revision of (1) product, **Lockable Weatherproof Frames** in Poster Frames Index of MT Displays 2017 Catalogue.

Dear MT Displays Partners, Distributors and Other Interested Partners,

Effective from today, MT Displays launches the revision Lockable Weatherproof Frame 3.0. Through this specification development process, MT Displays will expand product use in the commercial marketplace. As a key partner, MT Displays invites you to participate in following below information over the increased performance of Lockable Weatherproof Frame

The tentative M&T improvement revision schedule includes the following Milestones:	Dates
Release specification announcement letter	15.05.2017
Coordinate with distributors for pending orders	
Release new technical specifications	January, 2017

Steps of Revision:

MT Displays keeps the same design and technical specs of Lockable Weatherproof Frames. Due to change in water gasket, Lockable Weatherproof Frames external sizes have extended 4mm. MT Displays tested, reviewed analyzed the efficiency performance data and reorganized production process for Lockable Weatherproof Frames. As a result, MT Displays decided to revise Lockable Weatherproof Frames.

BOM Changes

There has been some no change in the components of Lockable Weatherproof Frames. With this change in gasket, Lockable Weatherproof Frames should fix 4mm larger places than it used to be (4mm extension both in width and height)

Distributor Participation:

M&T plans to track changes and implements changes automatically once the change has been approved; M&T incorporates it into a new revision of your BOM instantly. For your internal information, please communicate with your purchasing team and your sales team for introducing this new status of higher performance. For all your pending orders, the improved design will be applied automatically and used continuously.
