

# PRODUCT REVISION ANNOUNCEMENT

RELEASE DATE: 30/11/2021 - Document GSF022021

## Dear MT Displays Partners, Distributors and Other Interested Partners,

Plastics tend to disrupt the environment in a serious way. The majeure impact is that it takes many years to decompose. Besides, toxic substances of plastic are released into the soil and air, and cause pollution in every means.

Waste from plastic bags poses serious environmental danger to human and animal health. Here are some facts about plastic bags:

- 100,000 marine animals are killed by plastic bags each year.
- 4082kg of plastic waste go into the landfills each year.
- Every day approximately 8 million pieces of plastic pollution find their way into our oceans.
- While it takes just 12 minutes to dispose of a plastic bag, it takes over 700 years for this bag to degrade.
- Only 1% of plastic bags are recycled.

We need to use less plastic bags if we want to save our planet Earth.

As a responsible manufacturer, we have a strategical plan for sustainable development. As a part of this plan, we have started eliminating plastic bags from our packing of some products when and where it is possible. As the first stage, poly bags of below products are eliminated.

Through this specification development process, MT Displays increases the outdoor performance of above listed products. As a key partner, MT Displays invites you to participate in following.

The tentative M&T improvement revision schedule includes the following Milestones:	Dates
Release specification announcement letter	03.12.2021
Coordinate with distributors for pending orders	Ongoing
Release new technical specifications	December, 2021

### Steps of Revision:

This revision does not affect the product practically, but saves our environment.

### BOM Changes:

Product tree of those products has been revised. Existing SKUs remain the same.

### Distributor Participation:

M&T plans to track changes and implements changes automatically once the change has been approved;

M&T incorporates it into a new revision of your BOM instantly. For your internal information, please communicate with your purchasing team and your sales team for introducing this new status.

For all your pending orders, the new packing will be applied automatically and gradually.
