Dear MT Displays Partners, Distributors and Other Interested Partners,

Effective from today, MT Displays launches the revision of Best Buy LEDbox Double Sided Version 1.0. Through this specification development process, MT Displays will expand product use in the commercial marketplace. As a key partner, MT Displays invites you to participate in following below information over the increased performance of LEDboxes.

The tentative M&T improvement revision schedule includes the following Milestones:	Dates
Release specification announcement letter	16.12.2016
Coordinate with distributors for pending orders	Ongoing
Release new technical specifications	December, 2016

Steps of Revision:

MT Displays keeps the same design and technical specs of Best Buy LEDbox Double Sided. Due to request in being able to hang the LEDFrame in both portrait and landscape positions, we allow additional holes and hanging system. MT Displays tested, reviewed analysed the efficiency performance data and reorganized production process for Best Buy LEDbox Double Sided . As a result, MT Displays decided to revise Best Buy LEDbox Double Sided .

BOM Changes

There has been some minor change in the components of Best Buy LEDbox Double Sided. With this minor change, Best Buy LEDbox Double Sided can now be used both in landscape and portrait positions.

Distributor Participation:

M&T plans to track changes and implements changes automatically once the change has been approved; M&T incorporates it into a new revision of your BOM instantly. For your internal information, please communicate with your purchasing team and your sales team for introducing this new status of higher performance. For all your pending orders, the improved design will be applied automatically and used continuously.
