MAXI FRAME

It is bringing a new look to today's display atmosphere which is an alternative to Frame Systems, Banners, Pop-Ups by applying a printed fabric's installation into the frame profile with a sewed nylon strip.

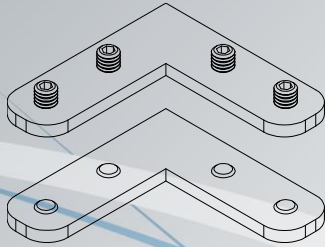

The product is a stunning combination of Aluminum and Digital Printing Machines where they unite with a fabric.

The attractive point of the product is when it is looked at the front side, you are unable to see the Aluminum Parts of the Frame which makes it look frameless.

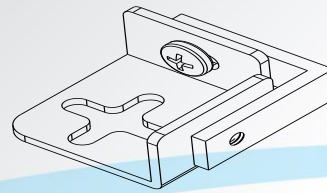

As our standard Maxi Frames are always supplied in an unassembled form with their connector, hanging parts, and nylon strips referring their sizes and also all these Profiles and the accessories can also be supplied as Semi-Products.

The details of packaging of the products

All the MAXI FRAMES will be individually packed.

Profiles and connector parts for the required sizes will be put into a box in an unassembled form.

Whatever the required size will be, then the nylon strip will be arranged for that size.

All needed hanging tools will be included within the package for all different MAXI FRAMES. Just for the Double Sided with Feet Option you have to mention which type of feet you are requiring.

*The ceiling hanging piece, you have to order it separately
For all sizes, required hangers, or H-Profiles (to give strength to Big Sized Double Sided MAXI FRAME) will be supplied within the package.
In all H-Profiles and Mitred Corners of the Profiles, the Corner Cleats will be ready too.*
