

## Plastech PET Transparent and White

- Plastech PET sheet is resistant to light and retains its flexibility and strength.
- Plastech PET sheet is guaranteed for indoor applications only.
- It is guaranteed for indoor applications and conditionally for outdoor applications.

### Storage & Handling

Plastech PET sheets are best stored indoors under ambient warehouse conditions up to 20°C, away from direct sunlight, in a cool dry store. Do not store indoors close to heat sources, for example, radiant heaters or boilers. Standing sheets on ends or sides should be avoided.

### Conditions of guarantee

- This guarantee is applicable to Plastech PET sheet or roll material.
- The sheets must be stored, transported, processed and installed in observance with the nature of the material.
- They may not be subjected to any detrimental treatment caused by connecting, fixing or sealing elements or by any subsequent changes in respect of treatment of the surface, such as painting, printing, coating or machining operations.
- All information is given on the basis of general experience and to the best of knowledge. We can, however, not assume any liability for factors being beyond our control.

### Claims of guarantee

- A claim will be considered valid under the terms of this guarantee if cause should be given despite rigid adherence to the conditions of guarantee during the period for which the guarantee is valid and if the claim is being made without delay within this period.
- If a claim is acknowledged, the company guarantees to replace defective material free of charge (including the cost of transport to the site). No further claims will be recognized.
